PROGRAM SUMMARY

The Artisan Contractor Program provides general liability coverage for specific classes of trade contractors. The program is designed to meet the needs of small to mid-sized contracting companies doing business within the trades and construction industry. The Artisan Contractor Program does not cover contractors who hold an active or inactive General Contractor's or Builder's License acting in the capacity of a General Contractor, Builder, Construction Manager, Project Manager or Developer except for activities that are customary and routine for structural remodelers. The scope of work is limited to the customary and routine activities described in the selected classification(s).

SECTION I SCOPE OF COVERAGE

Risks that have any one of the following characteristics are not eligible for this program:

- New residential construction of condominiums; townhouses; timeshare developments; or "any project or premise on which more than 10 houses have been built or are in any stage of development, planning, or construction. This ineligibility does not apply to "work done on a new single custom home for an individual in a development" or "remodeling or additions to a single house in a development".
- Construction management for a fee.
- Exterior work exceeding three (3) stories in height.
- Public street, road or highway work.
- Power line construction, burglar or fire alarm system, electrical machinery or auxiliary apparatus work.
- Liquefied petroleum gas (LPG) equipment sales or work.
- Spraying, tree trimming, tree removal or tree pruning.
- Painting of tanks.
- Fire sprinkler installation or service.
- Sign erection or sign work above the first floor.
- Swimming pool installation.
- Removal of any asbestos.
- Roofing work, including, but not limited to, installation or repair of roof flashings, shingles, roof coatings or paint.

SECTION II GENERAL RULES

1. Policy Term

Commercial General Liability policies are to be issued for a term of 12 months.

2. Policy Writing Minimum Premium

This program has no minimum premiums.

3. Rounding Procedure

A. Premium

Each coverage or exposure which requires a premium calculation will be rounded to the nearest whole dollar. Fifty cents or more will be rounded to the next dollar. Charge a premium of at least \$1 whenever a separate premium is calculated.

B. Rates

Round rates, factors, and multipliers after the final calculation to three decimal places. Five tenths or more of a mill shall be considered one mill, for example .1245 = .125.

4. Premium Changes

Prorate all premium changes using the rates and rules in effect on the effective date of the policy.

5. Waiver of Premium

Waive additional premium of \$10 or less. Note: No waiver is allowed for return premium.

6. Policy Cancellations

Policy Cancellation procedures will follow the Common Policy Conditions and state specific requirements.

SECTION III ELIGIBILITY

1. Subcontract Labor

If the insured sublets any work, the insured must obtain Certificates of Insurance indicating evidence of Commercial General Liability coverage, including products and completed operations coverage.

2. Time in Business

Business should be successfully operated for at least three years. Start-up operations or new in business will be considered by providing information regarding two or more years prior experience in the same particular trade.

SECTION VI HOW TO RATE

1. Based on the insured's business operation, choose the classification(s) from the Classification Schedule of this manual, which describes the operation.
2. Choose the current Premises / Operations and Products / Completed Operations rate for each classification and territory;
3. If occurrence form, multiply by 1.00.
4. Multiply by Service and Repair Factor. See Section VII – General Liability Coverage Modification – 4. Service and Repair Factors;
5. Multiply by Risk Experience Factors. See Section VII – General Liability Coverage Modification – 1. Risk Experience Factors;
6. Multiply by Deductible Factor. See Section IV. - Mandatory Coverage – 2. Deductible Factors;
7. Multiply the at limits premium by the exposures (payroll divide by 1000) to arrive at the at limits and deductible premium;
8. Multiply the limits and deductible premium by the Large Account Credit (if applicable).
9. Multiply the limits and deductible premium by the Multi-policy Credit.
10. Add Premium Charge Coverage Options. See Section VIII. - Optional Coverages – 2. Premium Charge Coverage Options.
